## RESOLUTION

### MONONGAHELA RIVER LOCKS

The City of Pleasant Valley in Marion County, West Virginia is in agreement with other communities along the Tygart Valley and Monongahela River to keep the Morgantown, Hildebrand and Opekiska locks on the Upper Monongahela River in operation.

Keeping the locks in operation will continue to afford current standards of commercial and recreational travel on the waterways of North Central West Virginia that our residents have become accustomed to.

The City Council of the City of Pleasant Valley asks the United States Army Corp of Engineers to continue to provide reasonable operation and maintenance of the Morgantown, Hildebrand and Opekiska locks and dams on the Upper Monongahela River.

Passed by the Council of the City of Pleasant Valley, West Virginia, on the 15<sup>th</sup> day of August, 2012.

I, Rebecca Kimmie Teets, City Clerk, of the City of Pleasant Valley, do hereby certify that the foregoing resolution is adopted by the Pleasant Valley City Council.
